EDUCATION

Bachelor of Science in Information Technology 2021 – 2025
Systems Plus Computer College

SKILLS

Database:	**MySQL Workbench** (SQL Queries, Data Cleaning, Data Analysis)
BI & Visualization Tools:	**Power BI** (DAX, Interactive Dashboard), **Tableau** (Interactive Dashboard)
Spreadsheet:	**Microsoft Excel** (Pivot Tables, VLookup, XLookup, Conditional Formatting)

PROJECTS

Lotus Retail Sales Performance Dashboard – *Personal Project* October 2026

- Transformed, cleaned, and validated retail sales data using **SQL**, improving data consistency and preparing the dataset for data visualization in **Power BI**.
- Developed an interactive **Power BI** dashboard using **DAX** to create measures for completed revenue, gross profit, gross margin, and completed orders to monitor key performance indicators (KPIs).
- Implemented an interactive year slicer to enable dynamic data exploration and analyze sales performance, profitability, and customer behavior across different reporting periods.

Cafe Sales Data Cleaning – *Personal Project* October 2026

- Cleaned a cafe sales dataset with over 8,000 transactions using **SQL** queries by identifying missing, invalid, and inconsistent entries, improving data quality and consistency for further analysis.
- Validated and standardized sales data by removing unnecessary whitespace, correcting invalid values, and checking item's price consistency to have reliable and accurate data for further analysis.
- Transformed date field from text to the appropriate date datatype making the dataset more suitable for accurate SQL queries and further analysis.

Superstore Giant Sales Interactive Dashboard – *Personal Project* October 2026

- Developed an interactive sales dashboard using **Tableau** to visualize key performance indicators, including overall sales, profit, monthly sales trends, and regional performance.
- Created data visualizations, including a monthly sales line chart, a state-level sales map, and a regional sales bar chart to identify sales patterns and compare business performance.
- Implemented interactive filters for product category, sub-category, shipping mode, and order date to enable dynamic data exploration and support data-driven decision-making.

CERTIFICATIONS

- **Excel Basics for Data Analysis** – *Issued by IBM* September 2026
- **Introduction to Data Science –** *Issued by Cisco* July 2026
- **Microsoft Office Specialist: Excel Associate –** *Issued by Microsoft* December 2022

EXPERIENCE

Accelerated Wellness and Pain Clinic Caloocan February 2025 – May 2025
Video Editor (Intern)

- Produced engaging content daily promoting healthcare services and political campaigns to boost audience engagement.
- Coordinated with the production team to develop an effective niche and outlines to create engaging content.
- Managed and organized raw video files to have an efficient editing and production flow.
